

Orvion IntelliAct
Automation

Anything and Everything in Automation

COMPANY PROFILE

About OIAPL

Orvion IntelliAct Automation Pvt Ltd was founded by two senior executives from a leading multinational industrial automation company, bringing **over 25 years** of global experience.

With a proven track record of delivering large and complex automation projects worldwide, Orvion combines deep domain expertise with **Technical Excellence to provide Innovative and Reliable Solutions.**

OIAPL specialises in **Industrial Automation** across key sectors such as **Power, Chemicals, Steel, Metals, Refineries & Oil & Gas, Terminal Automation, Water SCADA**, and more...

Our MISSION

To become the **most trusted** provider of automation solutions by delivering cutting-edge technology, innovation, exceptional service, safety, and superior quality in a **highly competitive** manner.

We strive to create value for our customers and make a **meaningful difference**.

We are dedicated to building lasting relationships by upholding **professionalism** and **transparency** in all aspects of our business

Our VISION

To become **the leading one-stop solutions provider**, revolutionizing the automation industry with innovative, reliable, and comprehensive solutions and services.

Orvion IntelliAct aspires to lead the industrial automation sector by embracing the latest technologies to **deliver sustainable and intelligent solutions**.

Why OIAPL?

Comprehensive Solutions

End-to-end automation services that address all facets of industrial operations

Innovative Technology

We leverage cutting-edge technology to enhance efficiency and competitiveness

Industry Expertise

Our experienced team provides tailored solutions to meet unique operational challenges

Commitment to Excellence

Quality and precision are central to everything we do, ensuring adherence to industry standards

Timely Delivery

Timely Delivery is reason for success in any Organization, we are committed to this aspect.

Customer First

“A satisfied customer is the best business strategy of all.” we believe in it.

Our Trusted Partners

The logo for SUPCON, featuring the word 'SUPCON' in a bold, blue, sans-serif font with a slight 3D effect and a blue shadow.

Transform the process industry with AI-driven automation, empowering businesses in Chemicals, Energy & Materials.

The logo for KIDDE GLOBAL SOLUTIONS. 'KIDDE' is in large, bold, black letters with a red vertical bar to the left of the 'K'. 'GLOBAL SOLUTIONS' is in smaller, red, all-caps letters below it.

The Next Level of Fire and Life Safety Leadership

The logo for HTS HT Switchgears. 'HTS' is in large, bold, red letters with a small 'TM' trademark symbol. 'HT Switchgears' is in smaller, black, sans-serif letters below it.

Specialists in Control Panels, Switchgear and Power Distribution Solutions

The logo for Dräger, featuring the word 'Dräger' in a bold, blue, sans-serif font.

Turning technology into
"Technology for Life"

Meet the Directors

Sachin Samant

Founder & CEO

Ex-Director – Program Management | Honeywell Automation (I) Ltd.

A seasoned industry leader with 29+ years of overall experience, including 22 years with Honeywell, and over 5 years heading Honeywell India operations.

Led Honeywell's Project & Automation Solutions Business across all verticals in India, with end-to-end responsibility spanning:

- Strategic Sales & Business Development
- Project Management & Execution
- Automation Solutions Delivery
- Final Handover & Customer Satisfaction

Successfully delivered highly complex and large-scale projects across multiple industry verticals, with a strong blend of Global and Domestic project experience.

Recognized for

- Strong industry connect and professional reputation
- Hands-on leadership approach
- Driving operational excellence and customer value
- Managing challenging, multi-disciplinary programs

Education & Certifications

MBA

B.E. (Electrical Engineering) – Pune University

Six Sigma Green Belt Certified

Sreedharan P.

Director

Ex-Operations Head | Honeywell Automation (I) Ltd.

A seasoned operations leader with 24+ years of overall experience, including 20 years with Honeywell, and over 5 years leading Honeywell's Terminal Automation & Pipeline Business in India.

Held full lifecycle responsibility from Sales and Business Development to Project Execution and Final Handover, ensuring operational excellence and customer satisfaction.

Successfully delivered highly complex and large-scale projects, including all four phases of Hazira Port, demonstrating strong execution capability across critical infrastructure projects.

Brings a strong mix of Global and Domestic project experience, backed by a solid industry network and respected professional reputation.

Education & Certifications

MBA

B. Tech – Electrical & Electronics Engineering,
(JNU Technological University, Hyderabad)

PMP® Certified

Six Sigma Green Belt Certified

Infrastructure & Team – OIAPL

Team Strength

Built and developed a dedicated team of **10 professionals**, including **9 technically qualified members**, ensuring strong domain expertise and execution capability.

Infrastructure

A fully equipped **1,000 sq. ft. office in Pune**, designed to support project management, engineering coordination, and client interactions.

Client Engagement

The office regularly hosted customers for **project discussions, review meetings, and technical deliberations**, strengthening professional relationships and trust

Industry recognition

Represented the organization at the **CEO Conclave** during the **IEC Annual Event, Mumbai – November 2025**.

Shared the dais with distinguished industry leaders, including:
CEO, Yokogawa / CEO, Adage Automation /
CEO, Samson Controls Pvt. Ltd. / CEO, SUPCON Technology Co. Ltd.

This participation reflects strong industry presence, leadership credibility, and recognition among global automation and control system leader

“In today’s industrial landscape, Automation is the engine of productivity, the guardian of safety, and the architect of future-ready enterprises.”

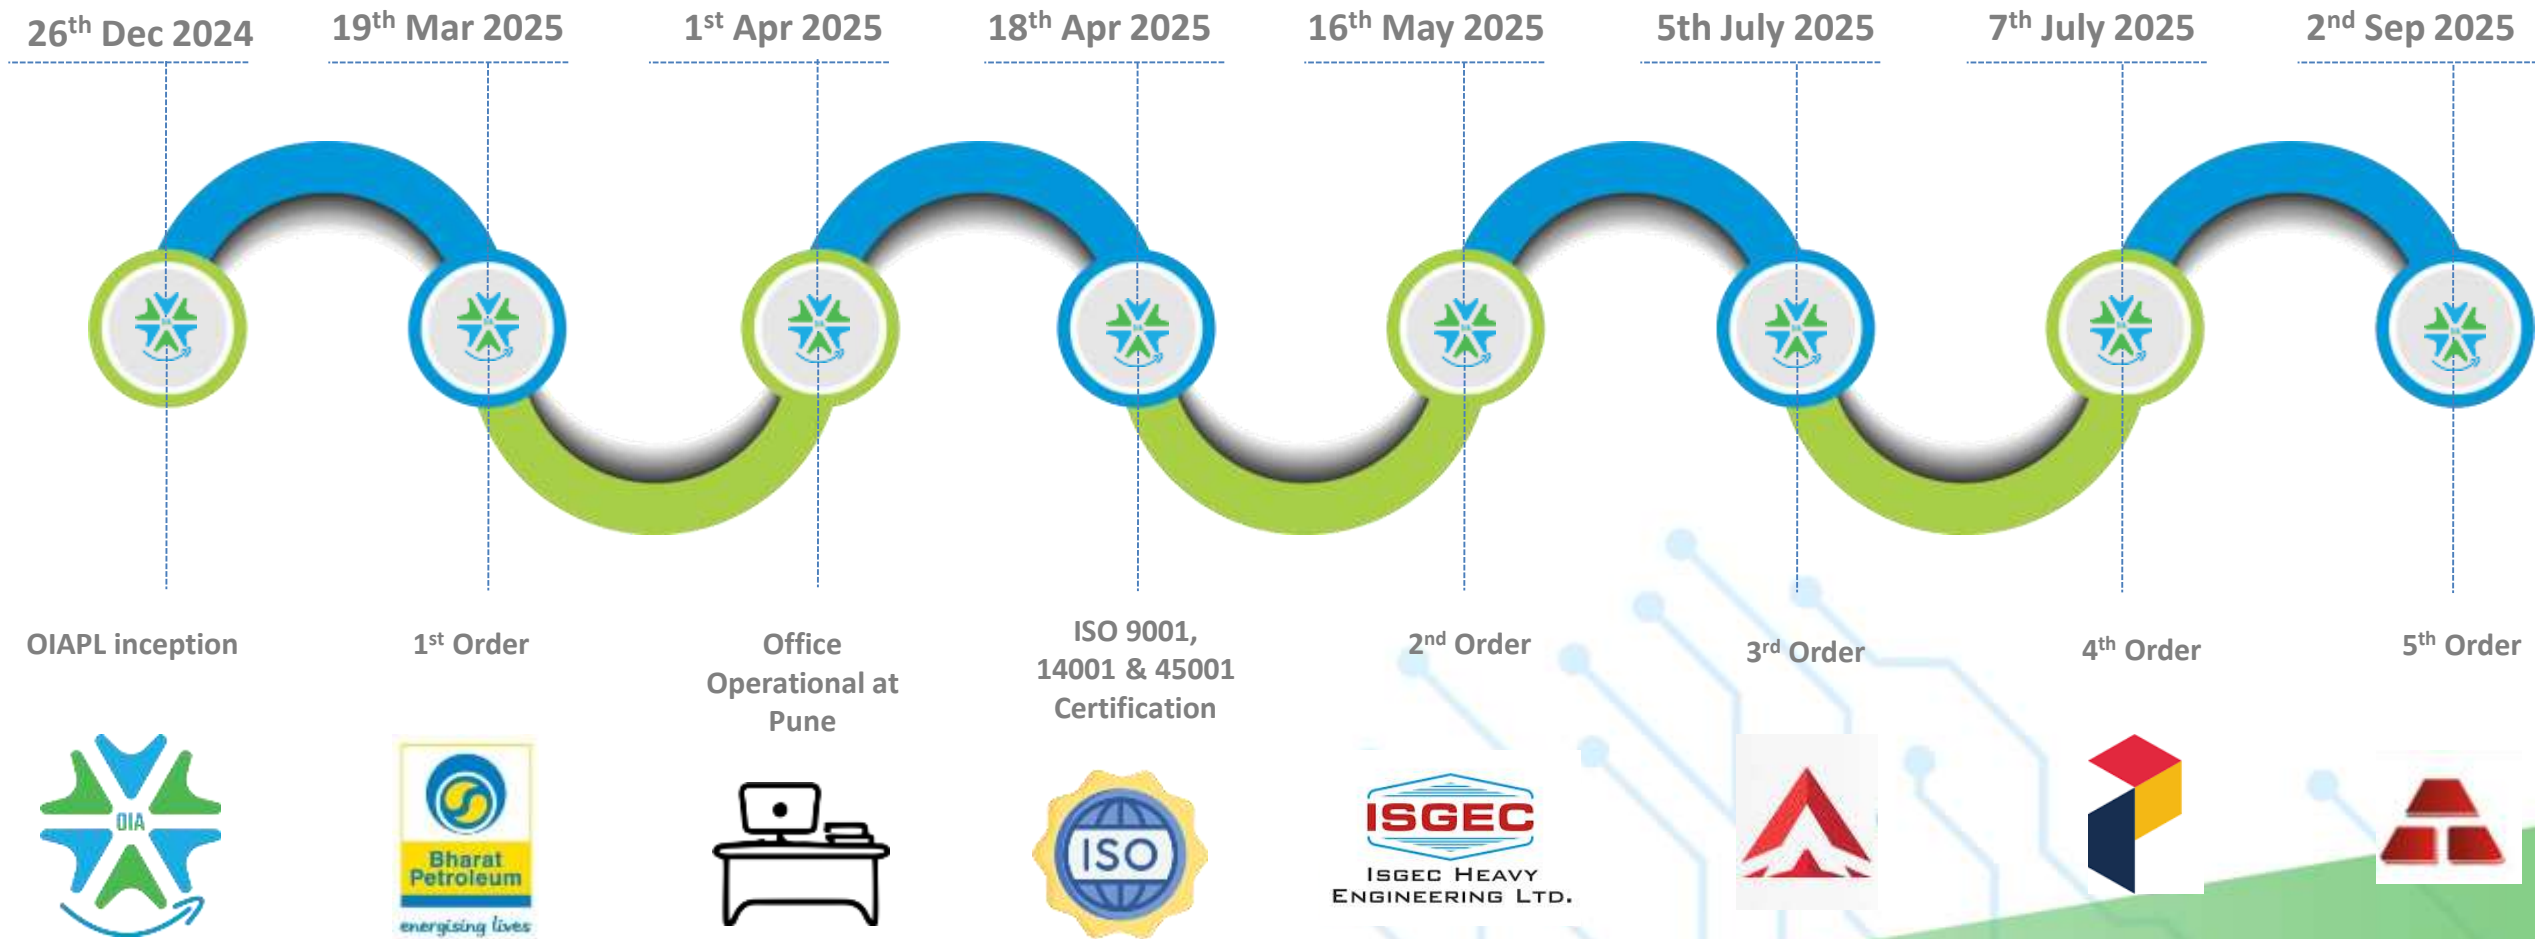

Our esteemed Clientele

Our 1st Year Journey and achievements

Customer Engagements and Reach out through Events

Our Solutions - Core Business Model

Power Plant Automation

We specialize in power plant Automation, ensuring reliable, efficient, and sustainable power generation and distribution.

Our solutions cover Main Automation of Power Plant, Load Management. Expertise in R&M / Projects

Terminal Automation

We deliver end-to-end solutions in Pipeline SCADA, PIDS, Terminal automation to enhance control, security, and efficiency in fuel handling, storage, tank truck systems, and wagon loading.

Our systems streamline operations, minimize errors, and reduce downtime.

Refinery Automation

Our Refinery Automation solutions address process Optimization, Safety and Regulatory compliance.

It covers Process Control, Monitoring and Predictive Maintenance to enhance performance in refinery operations.

Metals / Mining Automation

Our customised solutions for the Metals and Mining Sectors optimize processes from Extraction to Refining.

It improves Productivity, Safety, and Environmental Impact.

Water SCADA

We provide comprehensive Automation for Water distribution and treatment systems.

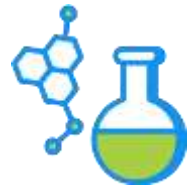

We manage Real-time Data, Fault detection, and Control to help clients optimize water usage and ensure regulatory compliance.

Wide range of **Solutions** for an **Effective Market Reach**

Our Solutions - Core Business Model

Chemical Automation

We specialize in the application of automated systems and AI in Chemical processes, Research, and manufacturing.

It aims to enhance efficiency, precision, and safety while reducing human intervention in repetitive or hazardous tasks

Pharma & Paper Automation

We Strive Automation in Pharmaceutical & Paper industry to streamline processes, enhance efficiency.

We also ensure accuracy, and maintain compliance with regulatory standards.

Engineering Services

Expert solution on Engineering (Design, Detailed, Hardware, Software), Project Execution.

Also on Site Implementation, AMC & Manpower provision on field like Safety, Security, Reliability and Sustainability side across all Process & Automation Industries.

Software Services

We are into Industrial Software & Mobility Applications like Cyber, Industry 4.0, IIoT and AI initiatives to analyze the Asset Data.

Convert it into actionable intelligence for Ops, Engineering, Maintenance, Analytic Applications / IT Enterprise to enhance the outcomes across industries.

Manpower Services

We offer a workforce of highly skilled, certified professionals in automation, control systems, and maintenance, ensuring clients have the right resources to operate and maintain their automated systems.

Detail Engg. Consultancy

We outline clearly the boundaries of the consultancy work. Defining deliverables, timelines, and key performance indicators (KPIs). Identifying roles and responsibilities for both the consultant and the client.

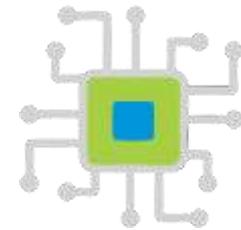

Our Core Values

Industry Expertise

- Knowledgeable about a wide range of industries, industry-specific insights, feel free to provide solutions
- Tailor made Solutions of every aspects

Technology

- Application of Latest knowledge, tools.
- Usage of and methods to solve problems, create systems, and improve human life
- Innovations for generating, storing, and consuming energy
- Technologies aimed at sustainability

Quality

- Timely Delivery of products / projects / solutions
- Timely supports to all service calls
- Delivery with quality and value engineering

Customer Centric Approach

- Strong Relationship and good connect with customer
- Direct connect with OEM
- Partnered with Global Brand for variety of Products and solutions
- Partnered with Local Brand for Economy Growth and localizations

Our Solution offerings

PROCESS OPTIMISATION

AAIMS / PHD / Historian
/ Asset Management / RTDBMS
/ Loop Optimization / Intelligent Devices Management /
Personnel Positioning System

SOFTWARE / CLOUD

Industrial Operating System
AI / Cyber / Industry 4.0 / Robotic
/ Equipment Remote Diagnostic
/ IIoT Access / Public Cloud
/ On-Premise / SaaS

MACHINE MONITORING & COMPRESSOR CONTROL

Vibration Monitoring System
Generator, Turbine, Rotating Machine, Pumps
/ Sensor / Corrosion and Leakage monitoring

Compressor Control System
Interlock Protection
/ Anti-surge Control / Speed Adjustment
Performance Control

WATER / ELECTRICAL

Water : Smart Solutions / SCADA / Distribution /
Irrigation, Sewage Treatment Plant, ETP

Electrical : HT LT Switch Gear / MCC / PMCC Panel,
VFD Panel, Breaker Panel / Capacitor Panel
/ GAS Insulated Switch Gear / DOL Starter

REFINERY & PIPELINES

DCS / Safety PLC/ SCADA / PLC / RTU / Cyber Security
F & G / CCTV / Fire Alarm/ Access Control / Gas Detection

Process & Field Instruments / Monitoring Solutions
Pipeline SCADA / Telecom / Leak Detection / Batch Tracking

TERMINAL AUTOMATION

TAS / Tank Farm Management / Metering Equipment
Software : ERP /Order/ Customer / Dealer Management
Blending / Additive Dosing / Vehicle Tracking system
Skid : Loading / Unloading / Overspill / Earthing Relay

POWER PLANT AUTOMATION

Boiler Automation /Turbine Control Systems / Coal and Ash
Handling Automation / Water Treatment and Steam Cycle
Management / Renovation and Modernisation (R & M)

CHEMICAL / PHARMA

Control System / Remote IO / L2 Integration / Field Instruments
/ Valves / Flow Meter / Product Lifecycle Management (PLM) /
Regulatory Compliance/ Digital Logbook /Data analytics /
Reports / Dashboard /Batch Management

Our Product offerings in **AUTOMATION**

ANALYSER

- Flare Gas Measurement
- Blast Furnace Gas and Coke Oven Gas
- Air / Fuel Ratio Control

CONTROL SYSTEM

- SCADA / DCS / PLC
 - RTU / Safety PLC
- Universal Control System
 - Isolator / Barrier
 - Safety Relay / SPD
- HART Communicator

FIELD INSTRUMENTS

- PT / TT / DPT / PG
- Process Controller / Calibrator
 - Recorder /Control Valves
 - Smart Valve Positioner

SWITCHES WIRELESS PRODUCTS

- Coupler / Industrial Switch / POE Switch / Smart EIO
 - Wireless Gateway
 - Wireless Transmitter

F&G AND SECURITY

- Fire & Gas Detector
- Fire Alarm Panel
- CCTV System
- Access Control System
- Network Management System

FLOW & LEVEL INSTRUMENTS

- Radar / Guided Wave Radar
- Fork / Flap type Level Switch
- Float type Level Guage
- Vortex / Turbine Flow Meter
- Smart Metal Tube Rotameter
- Electromagnetic Flowmeter

SOFTWARE

- IIoT / Cyber / Industry 4.0
- Digital Twin
- Laboratory Information Management (LIMS)

Our Electrical Product offerings

Electrical Power, Control & Automation Experts

- End-to-end integrated solutions provider
- Advanced manufacturing with cutting-edge technology
- IEC-compliant, NABL lab type-tested (ERDA, CPRI, ASTA)
- Design & manufacture of LV & MV Switchgears
- Driven by innovation, R&D and uncompromising quality standards

VACUUM CONTACTOR PANEL

33KV, KIOSK FOR WIND & SOLAR

VCB BREAKER PANEL UPTO 33KV

GAS INSULATED SWITCH GEAR (GIS)

CAPACITOR PANEL UPTO 36 KV

ELECTRICAL CONTROL DESK

C&R PANEL FOR ELECTRICITY BOARD

ON LOAD ISOLATOR (LBS) 400A

MEDIUM VOLTAGE DOL STARTER

TEMPERATURE SCANNER PANEL

SWITCH FUSE UNIT (SFU)

UNITIZED PACKAGE SUB-STATION (33 KV)

OFF LOAD ISOLATOR 3150A
